***Please note** - Blue Grass does not offer a warranty on live product sold at fundraiser prices. We do guarantee that all plant materials will be healthy and well cared for at time of delivery or pick-up. Follow planting information on identification tags. All flowering annual plants require regular water and fertilizer to grow to their full size and to flower continuously throughout the summer months. Most annuals also benefit from regular deadheading (removal of spent flowers and seed pods), this encourages more flowers over a longer period of time.

****Disclaimer** - Order is based on availability and is subject to change due to unforeseen circumstances. All products may not be exactly as shown. Substitutions may be made if product is not available and will be as close to the original order as possible.
